5/21/76

Dear Mr. Weisberg,

I am about 1/3 of the way through Post-Mortem and I think that the book is fantastic. In Post-Mortem you Prove beyond a dought that the warren commission's version of the Assassination of J.F.K was a farce.

The reason I wrote to you, was about the Zapruder film, and the slides that the F.B.I. and Life made of it.

From Frames [redacted]334, the presidents head is seen Looking almost striaght up, they show the wound to the presidents head.

In 1964 the warren Commission had Life make slides of the Original. Those slides are at the Archives and can be duplicated by the Audio-Visual dept. For 20¢ a slide, Only upon written Permmision from Mr. Robet Trien.

After writting several times to mr. Trien and reciving no answer I decided to call him by Phone.

The results of the conversation, Surpression.

He absolutly will not give anyone Permission to copy those slides, thus, no one with Photy raphic equitment, that would be able to blow those slides up, can't get those slides.

Do you Have any Suggestions?
